Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ Time Extension Request

Specific years requested 2004 and 2005

Is this a second request? ☐ No ☒ Yes Specific years requested. 2004 and 2005

(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).

Specific ADR requested %, for the years

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The programs selected for implementation in the SRRE were implemented, or modified, or alternative programs were implemented, instead. However, the programs resulting in the diversion of the most significant quantities of waste were not implemented until mid-2001 (Construction and Demolition Debris Sort Line) and October 2001 (Curbside Recycling and Yard Waste Collection). Additionally, composting of the yard waste collected began in late 2002. Prior to this change, yard waste materials were diverted to alternative daily cover. Since late 2002, clean wood from the Construction and Demolition Debris Sort Line has been processed into biomass fuel, rather than alternative daily cover. Beginning in June 2003, a second shift began operating the Construction and Demolition Debris Sort Line on a seasonal basis when there is sufficient additional material to process. Commercial office paper and cardboard recycling programs existed prior to development of the SRRE. These programs have been significantly expanded since then, and in September 2002, the office paper collection program was converted to a business curbside recycling program that includes the same materials as the residential curbside recycling program. A special event recycling program commenced in 2003, including Recycling Ambassadors to assist vendors and the public with understanding the program. Public and school education programs have been ongoing and also, in May 2003, the Flipping Lids Project designed to reduce contamination in the Curbside Recycling and Yard Waste Program was implemented. In December 2003, a Recycling Rewards program was implemented to support the Curbside Recycling and Yard Waste Program.

Additional time is being requested to allow for the existing programs to mature further as ongoing enforcement measures and public education efforts continue to improve the efficiency and effectiveness of the programs implemented in 2001 through 2003 and through the processing of additional quantities of construction and demolition debris materials. Additionally, the Adjustment Factors are just beginning to reflect the significant growth that has been occurring in the region in recent years.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

Additional time is required to allow the programs implemented in recent years to fully mature through ongoing enforcement and public education activities, through the processing of additional quantities of construction and demolition debris materials, and also for the Adjustment Factors to fully reflect the region's growth by 2006.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The RWMA's good faith efforts to implement the programs in the SRRE, or modified, or alternative programs, is described in item 1 above. Additional details regarding these efforts are provided in the Planning Annual Report Information System (PARIS), including the program notes.

4. Provide any additional relevant information that supports the request.

No additional information to be provided.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.
